

**Session Title:**

**Name:** INABA Atsushi

**Position:**

President, Japan Life Cycle Assessment Facilitation Centre

**Abstract title:**

About Our DAC-U Projects

**Abstract text (within 100 words):**

We are promoting several DAC-U projects as the Moonshot Research and Development Program. As a Sub-Program Director, I assist Program Director, Dr. YAMAJI. In particular, as an LCA expert, I expect each project to make a significant contribution to the future removal of CO<sub>2</sub> from the atmosphere. I would support each project by conducting CO<sub>2</sub> emissions calculations using LCA and exploring technical targets that will contribute significantly to CO<sub>2</sub> reduction.
